PROFESSIONAL SUMMARY

Python Full Stack developer (BSc IT, 2026) who builds web applications with Django, Flask, Tornado, REST APIs, JavaScript and MySQL / MS SQL Server. Built a Tornado + MySQL materials inventory dashboard with audit logging and e-mail alerts, a Flask package tracking gateway, and a deployed healthcare platform with WebRTC video consultation and a Tamil AI voice assistant. Currently a Full Stack Developer Intern at Bevywise. Seeking an entry-level Software Developer role to deliver reliable, user-focused applications.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6), SQL
Frontend: HTML5, CSS3, Bootstrap, React.js, jQuery, Chart.js
Backend & Frameworks: Django, Flask, Tornado, REST APIs, WebRTC
Databases: MySQL, MS SQL Server, SQLite
Libraries: pandas, openpyxl, ReportLab, requests, pyodbc, mysql-connector-python, python-dotenv
Concepts & Practices: Object-Oriented Programming (OOP), REST API design, Audit logging, E-mail notifications (SMTP), Agile methodology
Tools: Git, GitHub, VS Code, Render (deployment)

PROJECTS

Smart Healthcare & Telehealth Platform

Live Demo | GitHub

Python, Django, JavaScript, WebRTC, SQLite / MySQL | Python Full Stack Course Project

- Built and deployed a full-stack platform modeling 40 Tirunelveli hospitals, with OPD token booking, advance slot reservation, appointment cancellation and token tracking.
- Implemented an emergency SOS flow with 108 ambulance request, location capture, ambulance tracking and Tamil voice first-aid guidance.
- Built a Tamil / Tanglish / English AI voice assistant using the Claude API with a rule-based fallback and request rate limiting.
- Added WebRTC video consultation and a login-protected staff portal; secured secrets with python-dotenv, added Django automated tests and deployed on Render (Gunicorn, WhiteNoise).

Materials Inventory Dashboard

Python, Tornado, MySQL, JavaScript, Chart.js, ReportLab, openpyxl, pandas

- Built a real-time dashboard showing a live materials dataset from MySQL with search, pagination, column filters and 15-second auto-refresh.
- Designed a REST API (edit, delete, undo, redo, restore, history) and an append-only audit table that derives each record's deleted/active status on every read.
- Automated HTML e-mail alerts (smtplib) on every change, added Chart.js stock charts and CSV, Excel and PDF exports with low-stock and high-stock variants.

Courier Package Tracking Gateway

Python, Flask, REST APIs, JSON, HTML5, CSS3, JavaScript

- Developed a Flask tracking application with a POST /track REST endpoint, a responsive dashboard and validation of the UPS tracking number format (1Z + 16 characters).
- Integrated an external carrier-aggregator API to fetch shipment checkpoints, normalized the data into JSON, and handled HTTP 200, 400, 404 and 500 responses with fault-tolerant error handling.

Smart College Campus System (Frontend)

HTML5, CSS3, JavaScript, Bootstrap

- Designed and built the responsive frontend for a campus portal with consistent layouts, navigation, forms and JavaScript interactivity across mobile, tablet and desktop.

Foodie Website (Frontend)

HTML5, CSS3, JavaScript, Bootstrap

- Built a responsive food website frontend with menu listing, category sections and easy navigation, tested across screen sizes.

EXPERIENCE

Full Stack Developer Intern - Bevywise — Sep 2026 - Present

- Working with the team on Python, Flask, JavaScript, MySQL and MS SQL Server development tasks.
- Contributing to database design, debugging and feature delivery using Git and GitHub.

Web Designing Intern - Malaris Software Solutions — Jul 2025 - Oct 2025

- Developed a responsive perfume e-commerce website (home, product showcase, navigation) using HTML, CSS, Bootstrap and JavaScript, with JavaScript interactivity and cross-device testing.

EDUCATION & TRAINING

BSc Information Technology — 2023 - 2026 | CGPA: 6.85
Rose Mary College of Arts and Science, Tirunelveli

Python Full Stack Development - Dhatchan Academy — Jun 2026 - Present
Python, Django/Flask, MySQL, HTML, CSS, JavaScript, React.js

Higher Secondary - Amir Jamal Higher Secondary School — 2023 | 72.5%
